

Are You Feeling:

- Sluggish Easily Winded
 Run Down Tired All The Time
 Lethargic Overweight

Cell-Rejuv™ - Super O₂

Compare to Cell Food®**

When your body is deficient in oxygen, hydrogen, trace minerals, enzymes, amino acids and water, it does not have the ability to repair and maintain itself. The lack of these crucial elements causes your energy level to drop!

Are You Ready To Feel Better?

Healthy Habits® Cell-Rejuv™ is a unique liquid supplement that has the ability to cause the release of potential oxygen and potential hydrogen from the water molecule. When this release occurs, more oxygen and hydrogen can be provided to each tissue of the body. These elements also act as powerful antioxidants in the body and help clean up free radicals.

Circulatory Support!

Cell-Rejuv™ supports the circulatory system by helping to eliminate toxins from the body such as lactic acid and carbon monoxide which may have built up in the tissues and blood stream. Oxygen provides energy for the body as oxygen is required to burn carbohydrates for energy. When there is not enough oxygen present, the burn is incomplete and waste materials are formed.*
