Shocking Studies!

Are you in good shape? **Think you are SAFE?** You could need this even if you run 10 miles a day and your doctor says you are the healthiest person for your age on the planet! Some shocking studies indicate that even a young and vibrant 20-year-old has a 20% blockage.

EDTA & Circulation

Thousands of scientists and doctors agree that EDTA **detoxifies your body and your bloodstream.** EDTA is an amino acid that has been shown to be an effective chelator (cleanser) in more than one thousand studies world wide.

Detox Now!

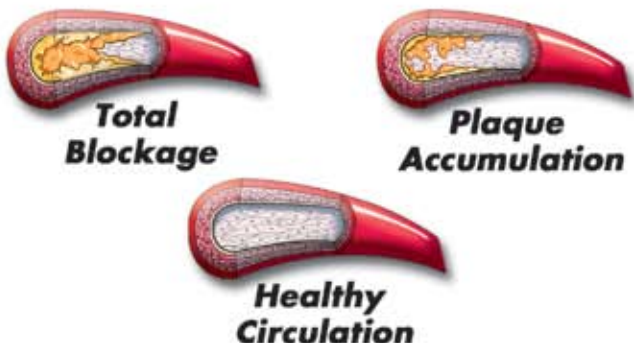

Toxins, heavy metals and build-up in your blood are damaging to the entire body, not just the heart. Poor circulation will affect every cell, tissue and organ in your body.

Do You Have Any of These Signs?

- Forgetfulness
- Fatigue
- Leg Cramps
- Sexual Difficulties
- Cold Hands/Feet
- Varicose Veins
- Poor Night Vision
- Ringing in Ears
- Frequent Sighing
- Easily Winded
- Bruise Easily
- Hands/Feet go to Sleep
- High Altitude Reaction

DON'T WAIT FOR A CRISIS

...before you decide to “change your ways.” Eat right, exercise and use supplements that can help **flush that sticky crud right out of your vessels!** It is easy to put things off; and unfortunately, most of us do. Take charge of your health! Hundreds of thousands have already benefited from EDTA. You could be next. With a money back guarantee, you can't go wrong!

Your Body May NOT be Receiving the OXYGEN it DESPERATELY NEEDS for GOOD HEALTH!

Toxins from today's environment can make your blood circulation worse and worse over the years! They can limit the supply of oxygen-rich blood your body and vital organs need.

It's similar to you not receiving enough oxygen to breathe. If you don't take an active role in flushing sticky, flow-blocking gunk, metals and toxins out of your blood vessels, you may as well cancel your car insurance and home insurance, because the risk could be the same, even greater because your health is at stake!

You can support a healthy circulatory system, and do it naturally, for only pennies a day. Let amazing EDTA go to work for you.

Thousands of cutting-edge health experts and scientists agree that EDTA can work to DETOXYFY YOUR BODY and CLEANSE YOUR BLOODSTREAM.* It removes heavy metals and plaque-grabbing calcium so they can be FLUSHED from your body.*

Yes, dear reader, this stroke of luck, this accidental discovery by Dr. Clarke has the power to clean out some of the heavy metals and other metabolic debris from our bloodstream so we can enjoy vibrant and exciting health easier than ever before!

PUT THESE GUYS TO WORK FOR YOU.

EDTA is like a scrub brush or nutritional broom for your arteries. It works by identifying and attaching itself to the toxins, metals and calcium in your blood pathways.

Here's the Story of How EDTA's Benefits Were Discovered & What it Means to Your Health Right Now.

2-time Nobel Prize Winner Dr. Linus Pauling (pictured left) published a summary report saying:

"Published research and extensive clinical experience showed that EDTA helps improve blood flow to the heart and to other important organs."

You have heard of lead poisoning, right? Well, Dr. Norman Clarke Sr., the director of research at Providence Hospital in Detroit, Michigan was using EDTA to treat patients with lead poisoning.

Then something strange happened. Dr. Clarke saw a "side effect," or in this case, a "side benefit" that made him exclaim to the other doctors:

"The patients ALSO had potentially dangerous calcium and debris flushed out of their bodies, in addition to the lead poisoning!"

The Scientific Evidence, Research Studies and User Reports All Prove the Incredible Health Promoting Power of EDTA Chelation Therapy! One Doctor has Called This the Greatest Health Discovery Since Penicillin!

More Energy, Like When You Were Much Younger! Stop being tired and fatigued so often. Get more things done, have more fun. Have more energy for your kids and grandkids!*

Sexual Performance! Sexual strength and stamina is all about circulation. PROSTATE and SEXUAL PROBLEMS are often caused in part by sluggish blood flow due to the accumulation of metabolic debris built-up in your blood pathways over the years. Once you deal with this problem, just watch how your prostate problems and sexual performance may improve!*

Support Normal Blood Pressure & Cholesterol Levels! Imagine how good it will feel when your circulation has improved and your blood flow is cleaner and healthier!*

Think Better & Clearer. Remember Better! Age related memory decline may have much to do with reduced circulation.* With improved circulation you may be able to solve even complex problems easier and make better decisions faster.

Chest Pain & Tightness From Stress & Worry? Stress can be eased significantly if you feel like you are taking better care of yourself. Better blood flow leads to better health and to a better outlook on life!*

Younger Looking Skin! Proper blood circulation nourishes your skin, making it softer and more radiant looking, with a youthful glow.* Meet WRINKLES, BAGS and OLD-LOOKING SKIN head on. Increased circulation gives your skin the support it needs to look it's youngest.*

Occasional Sleep Problems? Help relax yourself so that you remain in a deeper, natural sleep that re-charges your body.* Wake up full of vim and vigor!

Pain in Your Body? When your blood vessels are cleaned, your blood flows more easily. This leads to a healthy body and helps significantly reduce cellular inflammation.*

Cold Hands & Feet? As blood flows to places it has been limited, you may notice the warming of previously cold areas of the body.

Pins & Needles? Many users report the elimination of the pins and needles feeling, especially in the extremities.

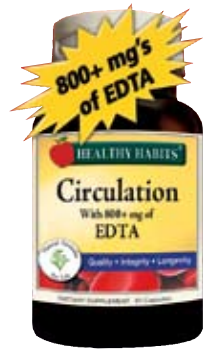

When You're Sick, Life is Tough! You feel down, sad, mad, frustrated or drained. With improved health and circulation, you could feel the excitement and fun of life again.*

Industry Leading Formula!

Circulation is a proprietary blend of nutrients that work to support the entire circulatory system. Natural antioxidants and vitamins work to protect and strengthen, while EDTA, an amino acid, works to cleanse the blood pathways of heavy metals and metabolic debris.* Intravenous chelation has been used by natural health practitioners to reduce arterial plaque and heavy metals, thereby increasing circulation. Use this convenient and inexpensive oral chelation formula. Feel the flow!

Circulation capsules contain over 800 mg of EDTA per day! Some brands contain only 100 mg or less of this essential ingredient. Don't settle for less. You and your circulatory system deserve the best product available!

They Love it!

"Circulation is working great for me. I used to wake up 6 or 7 times at night with leg cramps. After using Circulation I don't get leg cramps anymore!" -Virginia, MO

It Was About Time

"I am so happy with Circulation! I've been taking it well over a year. It was about time I found something to help me, all the drugs weren't helping. Every 3 months my right leg was having trouble again..." – Elsa, TX

About Us:

"Healthy Habits® is a family-owned company. We oversee the manufacturing of our products right here in the good ol' USA. We have been formulating exceptional products since 1976. The reason why our formulas produce results is because I operated a Wellness Clinic for almost 20 years. Our concern was to find products that WORKED. When we found that most products were garbage and produced little or no clinical change, we started making our own formulas. Our products became so popular that we eventually closed the clinic and took these effective products direct to YOU, the consumer."
