IonSkinWand®

The IonSkinWand® contains Germanium and proprietary mineral chips designed to promote improved facial skin cell blood circulation. This new and innovative semi-conductor facial beauty roller uses technology and germanium to reduce the appearance of wrinkles and dark spots, assisting you to look years younger. The result of using the IonSkinWand® is the tightening and beautifying of the skin. Now you are ready to defy the aging process!

How To Use The IonSkinWand®

Use it 3 times daily for 3 minutes! Patience is a virtue.

Face & Neck: Roll the IonSkinWand® all over the face and neck in an up/down motion.

Eyes: Start from under the eye and follow the bone structure to the outside. Focus on the “crows feet” moving in and up/down direction in that area.

Forehead: Roll in and up/down motion. Move across the forehead.

Smile Line: Roll in an upward direction. Start from the bottom and roll up toward the temple and under the eye.

Neck: Start from the base of the neck and move upward toward the jaw line. Repeat the same motion all over the neck.

Eliminate Puffiness: Roll in an up/down direction all over the face.

Health: Use for the recommended 3 times daily for 3 minutes each time to see anti-aging benefits and wellness benefits. Remember – Patience is a virtue!

Why Does The IonSkinWand® Work?

Our current urban lifestyle exposes the human skin to harmful positive ions generated from mobile phones, computers, electronic equipment, acids, chemicals, acid rain and ultraviolet rays.

Over exposure to positive ions can cause many premature aging problems:

1. Positive ions slow down the immune system and increase our vulnerability to disease.
2. Positive ions slow down our metabolism allowing waste to accumulate in and around the cells. This decreases our metabolism efficiency, causing weight gain, disease, cellulite and resulting in premature aging.
3. The 70% water make-up of our body becomes a toxic, polluted environment, making our skin look years older than it should as it assists with the detox process.

Benefits Of Using The IonSkinWand®

- Rebalances negative/positive ions allowing you to have more healthy skin.
- Provides negative ions for the skin, capillaries and veins.
- Helps remove puffiness in the face.
- The negative charge of organic germanium helps reduce the appearance of wrinkles and dark spots.
- Helps tighten and maintain healthy skin.
- Helps slim the facial tissue.
- Helps reduce tiredness and fatigue.
- The negative-charge organic Germanium helps to purify the blood and balance the negative-positive ions. This assists in relieving sore muscles and fatigue.
- 200+ mv of negative ion energy is emitted from the IonSkinWand®.
- IonSkinWand® chips are composed of 99.99% pure Germanium.
- The metabolism of the skin cell is an extremely important process as it purges waste while acquiring nutrients from the blood. Increased negative ions allow this process to be more effective and efficient.
- It has been stated that one rolling motion of the IonSkinWand® is equivalent to 1000 massage taps.
- The IonSkinWand® is made of oxidized Titanium which acts as an anti-oxidant and organic Germanium which helps support proper circulation by moving oxygen into the blood to improve circulation.
- Helps to move waste water out of the facial cells, resulting in healthier looking skin and overall better skin health.
