Healthy Habits IonWand®

What is the Healthy Habits IonWand®?

The IonWand® is a natural energy generating device. The energy created specifically rejuvenates molecular structures in all liquids. The rejuvenated molecular structure causes any liquid to become more hydrating, taste better and extended shelf life. Placed in a refrigerator, the IonWand®'s energy frequency permeates the entire refrigerator; all liquids, meat and fruit and vegetables will taste better and have extended shelf life. The renewed molecular chains are similar to those found in healthy natural spring water.

Like fruit and vegetables, the body also slowly loses molecular chains as we age. Using the IonWand®, they can be re-energized at a molecular level to provide renewed energy. The increased hydrating nature of IonWand® treated water is important to wellness. Molecular re-structured water carries improved oxygen flow to the blood, assists in detoxification of free radicals, improves liver detoxification and improves nutrient absorption by the body. The natural energy of the IonWand® improves sleep patterns when placed under a pillow and improves the positive chi energy of the body when worn or carried in a bag.

What is used to make the IonWand®?

Technically engineered natural minerals are fused and molecularly bonded together using high heat fusion methods. The combination of the minerals and the fusion techniques produces a catalytic conversion of energy, developing a long lasting natural resonance which has the ability to be transferred to any liquid, renewing the natural molecular chains. Each mineral grain has its own individual shape and size that, when combined with the other minerals through a catalytic conversion, generates the spinning resonance we call chi energy.

How does IonWand® work?

The IonWand® rhythm frequency spins in a counter-clockwise direction. Like other energy waves, it can influence inert objects. For instance, a magnetic field can influence metal objects and an x-ray can influence a film. Likewise, beta rhythms at the correct frequency and spin velocity can directly affect liquids, resulting in an indirect effect to substances containing liquids, including body cells.

The IonWand® contains minerals and crystals that tunes to zero point energy, similar to a radio, and focuses that energy. Zero-point energy is the energy that remains after all other energy has been removed. Zero-point energy is theorized to be the cause of gravity and inertia. The IonWand® “tunes” or “reminds” the cells of the zero-point energy field where everything is balanced. It is used to balance the body's chi, speed the healing process and invigorate the immune system. To feel the energy, turn both palms up and, pointing the IonWand®, do counter-clockwise circles on the fingertips and palms for at least 20 cycles as close to the skin as possible.

The IonWand® manufacturer claims the following benefits:

- Discharges blockage in the body by allowing the life force to flow freely.
- Removes any distortion on the bio-energetic force
- Increases the natural potency of minerals and vitamins found in food, by working on the nutrients within them.
- Corrects imbalances in the body.
- Helps relieve aches, pains and discomfort.

How does the energy transfer to the water using the IonWand®?

The IonWand® energy spins into the liquid, counter-clockwise, or the liquid can be poured over the IonWand® where it ‘picks up’ the resonance. The resonance generated is similar to that which is found in the earth surrounding many healing spring waters of the world. At the moment, scientists do not understand why liquids behave differently and positively in the energy field. Much research is now focused on this fact. 70% of our body consists of water, therefore, it is important to nourish the body with the correct molecular structured water.

Does the IonWand® expire?

We expect the IonWand®’s energy to last 30 years as recent tests on the original pre-production test units made five years ago indicate that they have increased in energy levels instead of decreasing. Unlike a magnet, the resonance does not appear to be affected by the earth’s gravitational pull.

What are the benefits of IonWand®?

Molecular structures in liquids allow the taste buds to recognize the taste we enjoy. The flavor of any wine, liquor, coffee, tea or fruit juice will be enhanced when an IonWand® treats the liquid. Any food we consume that has been treated by the IonWand® will always taste better. Mixing IonWand® water with a beverage reduces the effects of acidity and tannins in the body. When

food or medicine is combined with IonWand® water, the nutritional benefits are amplified by enhanced cellular absorption.

The body can quickly absorb liquefied oxygen, enhancing internal organ functions and increasing blood energy levels. This benefit is important for athletes and workers who need to maintain a high immune system under physical stress. When drinking IonWand® water, the blood's oxygen levels increase. This can be measured using a blood oxygen analyzer. IonWand® water drinkers will find that they have increased energy levels and more effective immune systems. Use it to treat IonPod® water for increased benefits.

The body's molecular structure can rapidly absorb the nutrients and essential minerals found in the IonWand® water. This effect feeds the body cells with essential minerals. Since the IonWand® water molecular structure does not break down, it can continually absorb cellular waste, support improved bowel movements, help maintain proper cholesterol levels and detoxify the body. Important minerals such as calcium can be more efficiently absorbed. Improved nail and hair growth and an enhanced resistance to tooth decay are visual verifications of the enhanced absorption of vital cellular elements.

When IonWand® water is used in conjunction with supplements, they are quickly and efficiently absorbed.

How do I best use the IonWand® on my pet?

To use on your companion animals, point the IonWand® towards the affected area (i.e., arthritic joint) and rotate the IonWand® in a counter-clockwise motion for at least 10 cycles. To see better results, point it as close as possible to the affected area and do as many cycles as time permits. To unblock energy fields, press the IonWand® between your pet's toe pads.

Can I use the IonWand® on any type of water?

The IonWand® can be used on any water. There are no exceptions. For best results, treat your water in the IonPod®, then, use the IonWand® either while the water is still in the IonPod® or after you pour it. Use the IonWand® when preparing fruits and vegetables and any food containing water.

Movie Links:

These movie links demonstrate the effects produced by energy wands similar, but not the same, as the IonWand®. Notice the clock-wise motion. To use the IonWand® be sure to use **counter-clockwise** cycling. This is how you can tell an authentic IonWand®. ***Why spend hundreds of dollars when you can obtain results for \$59.95?***

IonWand® Water Demo

Items Needed:

IonWand®
2 empty glasses
1 pitcher of water

Instructions:

1. Pour 2 glasses of water from the same pitcher.
2. Using the IonWand®, stir the water in the first glass in an counter-clockwise direction for at least 10 cycles.

Ask the volunteer:

1. First, taste the IonWand® water
2. Then, taste the original water.
3. Which tastes better? (The IonWand® water tastes remarkably better.)

Explanation:

The IonWand® is able to reform the molecular structure of the water. The result will be that the IonWand® water will have better taste, increased absorption and hydrating qualities.

IonWand® Lemon Demo

Items Needed:

IonWand®
Lemon
Knife
2 plates

Instructions:

1. Cut the lemon into a few slices. Put the slices on two separate plates.
2. Without touching the lemon, stir the IonWand® in a counter-clockwise direction above the lemon slices on the first plate for at least 10 cycles.

Ask the volunteer:

1. First, taste the IonWand® lemon.
2. Then, taste the original lemon.
3. Which tastes more sour? (The original lemon is very sour.)

Explanation:

The IonWand® frequency can be transmitted without touching any part of the lemon. The molecular structure of the lemon is changed just by being near to the IonWand®. This change will create an increased shelf-life, better taste and increased absorption efficiency of the essential elements contained within the treated food.

IonWand® Alcohol Demo

Item Needed:

IonWand®
Red wine
2 empty glasses

Instructions:

1. Pour the red wine into two glasses.
2. Using the IonWand®, stir the wine in the first glass in an counter-clockwise direction for at least 10 cycles.

Ask the volunteer:

1. First, taste the IonWand® wine.
2. Then, taste the original wine.
3. Which tastes better? (The IonWand® wine tastes better and smoother.)

Explanation:

The IonWand® improves the taste of most alcohol. The changed molecular structure of reduces its adverse effects. You will not experience a hangover after drinking the IonWand® alcohol.

IonWand® Cigarette Demo

Items Needed:

IonWand®
Cigarette
Lighter

Instructions:

1. Ask for a smoker to be the volunteer.
2. Light up the cigarette for the volunteer.
3. Without touching the cigarette, move the IonWand® counter-clockwise over it for at least 10 cycles.

Ask the volunteer:

1. Try the cigarette again.
2. What is the taste of the cigarette now? (It will be tasteless.)

Explanation:

The IonWand® changes the molecular structure of the cigarette without touching it. The IonWand® is a great tool to help someone cease smoking.

IonWand® Pain Demo

Instructions:

Point the IonWand® at the area of discomfort. Rotate the IonWand® counter-clockwise for at least 20 cycles just above the selected area. Depending upon how acute or chronic is the symptom, it may require up to 60 cycles before noticing a difference in discomfort. Repeated cycling at different times of the day is more effective for chronic situations than fewer long-cycle sessions. Continued exposure (within 12 inches) to the IonWand® will also accelerate improvement.

Using the IonWand® on your IonPod® or IonShield® water is another way that you can accelerate the healing process.

IonWand® Mist Demo

The use of the IonWand® Mist is simple. Place IonWand® water into a fine mist sprayer. Use it the same way that you would use a moisturizer. The frequency from the water helps bring balance back to the body and supports homeostasis.

To demonstrate the power of the water, use the following demo to illustrate the power of the IonWand® frequency.

Items Needed:

IonWand® water mist sprayer

Lemon

Knife

Two empty glasses

Covers for the glass

Instructions:

1. Cut a slice of lemon for each glass.
2. Place the lemon slice into each glass.
3. Cover the glasses so that air cannot penetrate into it.
4. Separate the glasses by at least 6 feet.
5. Spray the IonWand® Mist on the outside of the first glass.
6. Leave the glass for 10 to 15 minutes for the energy to be transferred into the lemon.
7. Notice the changed taste of the first lemon slice versus the second slice.

Explanation:

The IonWand® frequency transfers into the water, which then transfers it to the lemon even through a solid substance. This demonstrates the power of the IonWand®.
