*Exciting new
 natural health product!*

Introducing KINOTox™ PADS

*Attach KinoTox™ at bedtime and
 remove it in the morning for a
 wonderful fresh beginning.*

*Don't let toxins get you
 down! Enjoy a quality life
 through easy, natural
 detoxification!*

**Visual confirmation of
 absorption gives you
 immediate feedback!**

“ The pain I have had in my thumbs
 for a long time is almost gone! I
 was losing the ability to grasp and
 use my hands. The pads are great! ”
 — J.T., TX

Before

After

Toxicity Abounds

As adults, we have hundreds of man-made chemicals lodged in our bodies. Normal healthy body elimination processes do not remove them all. Foods, drinks, breathing, medications, stress, metabolism, disease, personal products applied to skin, synthetics, home and workplace chemicals all contribute to the body's toxic load. This can lead to degenerative disease.

For effective natural immunity, the body needs to reach a balance between absorption of nutrients and excretion of wastes and toxins.

“ My gums needed help and I made an appointment with a dentist. Then I started using the pads and after just one night I noticed a difference when brushing my teeth the next morning. ”
 — G.A.

Introducing **KINOTOX™** from Asia!

A Unique Health Discovery!

KinoTox™ is the latest wellness breakthrough from Asia. KinoTox™ is a science-based

product, developed from laboratory research. The founders of this concept spent their lives searching for the secret behind longevity as sought by the sages of ancient Asia. **This search led them to consider the mystical powers and energy of trees.** Trees are known to possess the powerful ability to draw and purify nutrients from their environment to support their long life. Even under extreme conditions, trees can grow and flourish. Many live for thousands of years. By unlocking their secret and applying it to humans, we may have **found the key to longer life expectancy.** Research on how trees grow, and the secrets behind their strong and lush growth, opened up new horizons for us to further improve our state of health. The result of this research is KinoTox™.

Toxins are substances which result in adverse chemical and physiological reactions in the body. Toxins undermine our health by causing stress to our biochemical and organ functions. **If toxins continue to accumulate in the body, they can cause the breakdown of the immune system and major internal organs.** Unfortunately, toxins are unavoidable. They pose a serious threat to the quality of our health and life. Twenty-six years of research yielded the discovery that wood vinegar essence found in certain trees has the ability to absorb toxins released through the skin. KinoTox™ is made from a unique formula that helps support the release of toxins via the lymphatic system. KinoTox™ pads are the most advanced way to provide this discovery to consumers!

Common sources of toxins:

- Harmful chemicals in cosmetics and skin-care products
- Pesticides
- Irradiated foods
- Psychological causes such as stress, worry, depression
- Tap water impurities
- Smoking
- Chemicals, preservatives and artificial colorings in food
- Pollutants from cars and factories in the air and water
- Radiation from phones and electrical appliances
- Living near waste dumps/landfills
- Alcohol consumption

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

Toxins Surround Us

Toxicity may contribute to:

- Acne outbreaks
- Anxiety
- Arthritis
- Bad breath
- Cancer
- Constipation
- Diabetes
- Digestive disorders
- Headaches
- Heart problems
- High blood pressure
- Lethargy
- Obesity
- Kidney failure
- Liver problems
- Pain
- Slow healing
- Joint problems

Toxins Accumulate in the Feet

There is an Asian expression that says, “Aging comes from the foot.” Eastern medical study holds the view that, due to gravity, **toxins move downwards in the body.** During the day they accumulate from the tips of the

toes to the ankles. Eastern medicine also teaches that **toxic accumulation leads to a variety of degenerative diseases.** Toxic fluid may contribute to an exaggeration of pain in the surrounding area.

Avoid Accumulated Fluids and Toxins

The feet are far from the heart. Your body has a difficult job of pumping blood carrying toxins back up to the heart, kidneys, lungs

and liver for filtration and purification. **Accumulated fluids and toxins can cause painful swelling around the ankles.**

62 Acupuncture Points on the Soles of the Feet

Toxins affect our quality of life. They cause pain and energy loss. They can also shorten our lifespan. We are unavoidably exposed to toxins every day. Whenever we eat, drink or breathe, we are subjected to toxins. Detoxification is part of the normal structure and function of the body; it helps clear the toxins, facilitate better blood circulation and enhance the immune system. Ultimately, detoxification helps the body function better and gives the body a better chance to heal itself. Detoxify now to start building a stronger and healthier body!

KinoTox™ comes in a white packet that is applied

to the soles of the feet or other areas of suspected toxic accumulation.

According to Chinese knowledge, the human body has Reflex Points on the soles of the feet. These

points are the reflective zones of our major internal organs. The top third of the foot relates to the top third of the body and organs. The arch relates to the center of the body. The heel relates to the lower third of the body. This is why many of us like to get a foot massage: it eases the nerves, enhances blood circulation and consequently promotes health.

The Reflex Points are potential homes for toxins. When lying horizontally, the body fluids gather in the head and feet. There is an acupuncture point in the sole of the foot called “yong chwean” which, in Mandarin, means “gushing water spring”. Because the blood circulates to the soles, KinoTox™ pads can absorb toxins released from the Points. Simply attach the pads to the soles of your feet before you go to bed. When you wake up, the job is done! After only one night of application, there may be significant changes to the smell and color of the pad, from its original white to brown or greyish black.

How to Use KinoTox™ Pads

KinoTox™ pads are applied at bedtime in the convenience of your own home. The box contains 10 dry white pads plus the adhesive strips.

You assess the used pads yourself daily. In the morning they can be brown, wet and gooey. In the case of extreme situations they may be black and soggy with considerable foul stench. The darker the color, the more likely longer use will be needed for maximum results. The pads may progressively become lighter and drier the longer they are used.

Globally, foot pads now sell over four million boxes a month since their release in 1998, mostly in Asia. This is old news in Asia, but definitely a new concept for this part of the world.

Having KinoTox™ on the sole of your foot is like having a foot massage!

Suggested Use:

Use one pad on each foot every night for 30 days. Then use nightly every other week for another 30 days. Pads may also be used on other areas of the body.

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

KinoTox™ Absorbs Odor, Perspiration and Waste

The all-natural dry ingredients in the KinoTox™ pads are adhered like a big band-aid to the soles of the feet overnight, while the body detoxifies.

The pads warm up and absorb the accumulated wastes from the skin surface. If the pads are still dry after use, they can be re-used.

KinoTox™ pads work best when placed on the soles of the feet. They can

be used any time but it is preferable to use them overnight. Socks worn over the foot pads can help prevent kicking them off during sleep.

“A friend of mine had back pain. He used the pad and within three hours the pain was gone!”
— D.R., NC

Potent Natural Ingredients

KinoTox™ pad ingredients include the Agaricus mushroom from the jungles of Brazil. The Agaricus mushroom contains ample amounts of glucagons. The pads also contain chitosan, bamboo sap, eucalyptus sap, ionic (absorbable) tourmaline minerals that contain far infrared rays which resonate with the same long wavelength of water in the body, saururus chenesis (the first plant to grow at the atomic bomb site in Hiroshima), wood vinegar essence and other potent plant ingredients.

The original Asian study of the health, longevity and natural disease resistance of mature trees deep in forests led to the formulation of the ingredients for the KinoTox™ pads. The trees' ability to purify large amounts of ground water into high quality water transported into the trunk and leaves, as well as the absorbing and detoxifying power of the wood vinegar, made it an effective, natural ingredient for human use.

KinoTox™ represents the synthesis of ancient wisdom and modern western technology. It draws upon the concepts of acupuncture, reflexology, far infrared radiation, essential oils and the use of poultices.

Not Just for Feet

KinoTox™ pads can be attached to other parts of the body and acupuncture points, but they should always be applied to the soles of the feet as well for best results. There may not be as much moisture removed from other parts of the body.

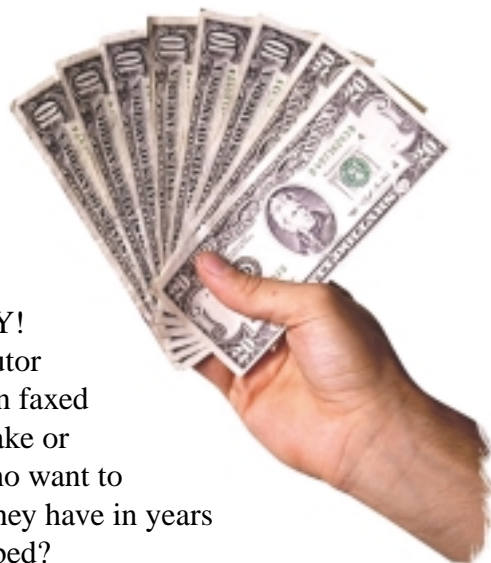

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

Super Business Opportunity for You with This Amazing Natural Wellness Product

The secret to amassing wealth is to find a need and fill it. Service the need with a unique product that is new, different, effective and which must be obtained exclusively from you. This is the opportunity that KinoTox International™ offers to you. Become a KinoTox International™ Distributor and you save \$19.95 on every box you purchase, PLUS you also make up to \$24.95 every time one of your referrals orders a box! This is a huge opportunity and an idea whose time has come.

Take advantage of our FREE Distributor Application offer, TODAY! Offer ends soon. Go to <http://www.KinoTox.com> and click on Distributor Application, or call 800-327-3884 to have your Distributor Application faxed or e-mailed to you. No inventory, no selling, no shipping, nothing to take or drink. This is the perfect business! How many people do you know who want to wake up in the morning, refreshed, energized and feeling better than they have in years simply by sticking a pad on the bottom of their feet before they go to bed?

KinoTox™ Users Are Ecstatic!

“Many woman have problems with menstrual cramping, bloating and moodiness prior to and during ‘that time of the month’. Well, I have found something natural that works great for my cramping that I never thought would work. I put a pad on my lower pelvic-abdominal area during the most severe cramping period, which normally lasted 5-6 hours, and within 38 minutes, the pain was gone. I didn’t have that feeling of weakness that normally took place. The pads are so great and the result is so quick. It sure makes for a better day when you’re feeling good.

I also sleep much more peacefully when I use the pad. This is the most effective product that I have ever used! More women should try using a natural product such as this!” — *K.W., IL*

“My brother had discomfort in his knees for years. It took 8 days, but, after wearing the pads, he feels the best he can remember.” — *K., NC*

“My son was having colds and was soooo tired he was having trouble in school. He was really toxic. It took only a few nights of wearing the pads, and he is much better and is now doing well in school.” — *K.W., IL*

“I didn’t think I had any problems so I didn’t expect to feel much from using the pads, but it was incredible! I slept deeper and felt more energetic in the morning than I had felt in years. The pads make me feel great. There is nothing like a great night’s sleep. I also notice a marked difference in my sinuses.” — *R.B., NY*
