The Circulation "Miracle Molecule!"

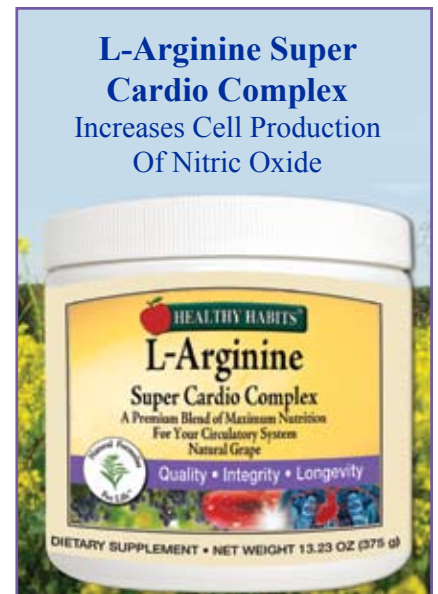

Studies by Nobel Prize Winning scientists Ferid Murad, MD, Robert F. Furchgott and Louis J. Ignarro reveal that Nitric Oxide is critically important to ensuring proper dilation of your blood vessels and efficient blood flow. That's right, a deficiency of this single, life saving nutrient could send your entire circulatory system into upheaval.

"This is a great product. It was recommended to my husband for improving circulation. It seems to be working. As a side effect his hair is getting thicker and he is 77 years old."

"This thing is so great you will feel it within 12 hours. Also you would see it on parts of your body, like muscles and glands expansive and relaxed. Plus this combo is a precursor for HGH."

"Feel it almost immediately."

LOOK WHAT 20 MINUTES CAN DO!

In just 20 minutes online, we found people everywhere who
LOVE L-Arginine...

"I have used it every night since I bought my first can. Taking one scoop per night improved my muscle tone miraculously. Within 3 or 4 days there was a visible difference, strength and endurance improved right along with the improved tone. I thought it might be difficult for me not to eat within 2 hours of taking the L-Arginine... before sleep, but the benefits are so great that it isn't hard to refrain. There is no way I would ever stop using this product..."

"This thing is so great you will feel it within 12 hours. Also you would see it on parts of your body, like muscles and glands-expansive and relaxed. Plus this combo is a precursor for HGH."

"Nitric Oxide (NO) is a chemical which may help 1. Lower cholesterol 2. Reduce arterial plaque 3. Expand blood vessels, reducing blood pressure and allowing blood to flow more freely. 4. Control platelet function to better ensure they don't clump together and cause blood clots."

"Has really lowered my blood pressure. As a side note, I started taking this for blood pressure, but noticed a slight... "viagra" effect, each time I take this (on an empty stomach). That was a surprise and an unintended thing, but hey... don't look a gift horse in the mouth!"

"I use L-Arginine for tendon health especially for my hands. As a chiropractor, I need my hands to be healthy and free of pain and this does the trick. I've also found it helpful for trigger finger."

"Very Pleased with the product. Seems to due the job in combo with L-Citruline."

"Used this product for a couple of months than quit, noticed a difference in the amount of energy that I had through out the day. Started taking it again and the energy is back."

"I needed other hormonal help along with this to sustain the effect but after taking it alone for several weeks, I did feel like I had a bit more of a libido. I've got lots of other things going on health wise, so there's no telling how it would help someone who just needs a bit of a boost."

"I take L-Arginine to increase heart function post MI. The alleged male sexual performance side-effects are for real. I am 60 years old."

"I have taken this for quite awhile and it has been very effective in helping me control my blood pressure."

"Great product. Can be taken on empty stomach with no discomfort. Great for people with a sensitive stomach, such as myself! Noticed the benefits within a few days. Improved blood flow, lower blood pressure and an overall calming effect. Also Improves Intimate stimulus."

"I have had very poor circulation and constantly cold feet for years. I can already tell a huge difference, especially at night. The other "side effects" have been nice as well."

"I have seen reduction in my blood pressure and my energy level has gone up."

"Have gained noticeable effects within a week, very happy!"

"I use this for my extreme cold feet from my peripheral neuropathy. This product works better than any other I have found."

L Arginine

Studies Show That Supplementing With L-Arginine Led To Substantial Reductions In Systolic Blood Pressure & Lower Ldl (Bad) Cholesterol Levels.

Cardio-Vascular Support**

Early but not yet conclusive studies show that by helping blood vessels to expand, it can help:

- Keep blood vessels flexible
- Keep arteries from hardening
- Lower cholesterol
- Control blood pressure & much more!*

Increased Oxygen**

It has been found that Nitric Oxide supplements offer added protection to the heart from damage and increase the supply of oxygen to the body.

Female & Male Sexual Stamina & Stimulation**

Another benefit of Nitric Oxide as a nutritional supplement is that it helps in stimulating the responses of female and male genitalia. Increasing the amount of Nitric Oxide has been shown to lengthen and heighten stimulation.

Immune System Support**

Your immune cells generally release Nitric Oxide to kill bacteria, parasitic and viral infections. The production of immune boosting "Killer T-Cells" in the bone marrow is theorized to be enhanced with Nitric Oxide supplements.

Brain Support**

Nitric Oxide is responsible for the transmission of messages between nerve cells and is connected with of memory, comprehension and restful sleep. Nitric Oxide producing supplements can also help stimulate the brain and help balance many of your biological functions from cognition to proper digestion.

About Us:

“Healthy Habits® is a family-owned company. We oversee the manufacturing of our products right here in the USA. We have been formulating exceptional products since 1976. The reason why our formulas produce results is because I operated a Wellness Clinic for almost 20 years. Our concern was to find products that WORKED. When we found that many products produced little or no clinical change, we started making our own formulas. Our products became so popular that we eventually closed the clinic and took these effective products direct to YOU, the consumer.”
