A word from Matthew Martin, President & CEO of Healthy Habits LLC.

Since The Beginning

My dad has been in this industry since the 70's. He and I often talk about the "old days" as he lovingly refers to them. He often says, "Back then there was a real sense of community. It wasn't about money; it was a mission and that mission was to make quality natural products available to those who need them." I like to tease him about the "old days" and what health nuts he and his friends are. But I've got to be honest with you; one thing I can say is that he knows a good thing when he sees it.

The Way It Was

Back in "the old days," if someone with limited resources came across an incredible formula, they would willingly and excitedly forward it on or give it to someone who could make it available to the masses because they felt it was the right thing to do. This is the Story of DermaTox®. I hope you enjoy it.

The Unannounced Visitor

In 1976 my father was in his wellness clinic when his receptionist announced that he had someone without an appointment in the waiting area. It was a lady he did not know. Who had come from Indiana. She said she was "led" to my dad and was prepared to give him **a natural formula that was unequaled in its ability to support the emergence of new, healthy cells.**

There Was A Catch

There was one catch...she made him promise to make it available to the public at the least possible cost. He learned later that this would be quite a task, because **the process to manufacture the natural crystal formula is very labor intensive.**

He Was Skeptical

Although he was skeptical about the things this lady told him about this formula, he decided he had nothing

to lose by producing it. That turned out to be a very good decision! The positive feedback about this incredible natural formula was amazing. Thousands of users were excited about this product and sent him testimonials of how they used and loved it. **They told him about spraying it on bruises, scrapes, stings, wounds, warts, sunburns and just about everything that needed quick soothing; and they told him how it worked better than anything else they had ever tried.**

Why Does the Formula Work?

This original natural formula contains the first zincboracyl crystal®, a natural compound created as only nature can do. The reason this formula (now in DermaTox®) is so popular and works so well is not entirely known, but we suspect it has to do with the way Nature bonds the minerals that merge together into the zincboracyl crystal® during the manufacturing process.

Crystal Healing from Nature & How It Is Made

A special, natural secret mix is put into pure water and allowed to grow into beautiful crystals. These wonderful crystals are something that only Nature can produce. Once all the crystals have formed, the water is drawn out and the crystals are slowly and gently dried. When the crystals are dry, they are dissolved into pure re-mineralized water. The result is a beautiful pink solution that we call DermaTox®! **DermaTox® is a practical and useful product that belongs in every household!** It provides effective, unique benefits that only DermaTox® can offer! Check out the amazing testimonial from my mother on the top of the next page.

Sincerely,
Matthew D. Martin

DermaTox[®] in Action!

"I was putting a roast into a pan containing very hot oil. When the roast touched the oil, everything seem to explode. The pain of the burn was terrible. The doctor told me I had almost a third degree burn and that I may need skin grafting from my butt. I told him that the skin on my butt was the last good skin I had and he wasn't taking it! (My mother is very stubborn). Instead, I faithfully used DermaTox[®] and a more conventional ointment morning and evening, sometimes more frequently. It took the pain away and started the wonderful healing process you can see in these photos. DermaTox[®] is simply amazing!" - L.M., AZ

About Us:

"Healthy Habits® is a family-owned company. We oversee the manufacturing of our products right here in the good ol' USA. We have been formulating exceptional products since 1976. The reason why our formulas produce results is because I operated a Wellness Clinic for almost 20 years. Our concern was to find products that WORKED. When we found that most products were garbage and produced little or no clinical change, we started making our own formulas. Our products became so popular that we eventually closed the clinic and took these effective products direct to YOU, the consumer."
